- **Have you been found “unfit” for the FFDO program? We can help!**

- **Status of the FFDO Program and Lobbying for Improvements**

- **Airline Security Improvement Legislation**

- **Membership is FREE!**

APSA is a non-profit, bipartisan, all-volunteer organization of 22,000 pilots and flight attendants working for REAL airline security before it's too late! Our focus is on giving professional air crews the tools, training and trust to defend their flights by improving the FFDO program and threat information sharing, and mandating tactical training for pilots and flight attendants.

If you want professional air crews to be treated as part of the solution, instead of part of the problem – if you want REAL security instead of its appearance – if you know how woefully unprepared we are for the next 9/11, PLEASE VISIT US and become a member FREE at www.secure-skies.org!

Because Airline Security should be more than a bad punch line!
